

healthy bodies, happy kids!

nutrition for the next generation

A Growing Need

One of the biggest factors in childhood development is nutrition. Data shows inadequate child nutrition hinders growth, leads to poor grades and increases illness susceptibility.

Key nutrients are essential to the development of a child's brain, eyes and nervous system. Unfortunately, the modern child's diet includes many over-processed foods. Today's kids rarely get the complete array of vitamins, minerals, protein and micronutrients necessary to reach their full potential. That's why Reliv Now® for Kids covers more than just the basics.

LunaRich®: A Second Line of Defense

Studies show that soy promotes healthy childhood development and decreases the risk of certain health conditions later in life. Reliv's exclusive LunaRich soy powder takes it a step further. LunaRich contains more bioactive lunasin — often many times more — than any other soy powder available. Lunasin is naturally occurring soy peptide that provides a second line of defense when the body's initial defenses fall short:

Nourishes. Delivers the nutritional fuel to promote optimal expression of genes required for normal cell function and development.

Protects. Inhibits inflammation and cell damage caused by free radicals and other environmental hazards. Protects in two ways:

- **Prevention.** Activates the expression of genes that help reduce cell damage and regulates the expression of genes that can cause cell damage.
- **Maintenance.** Helps remove damaged cells from the body that contribute to health problems.

DHA

an omega-3 fatty acid in Reliv Now for Kids critical to brain function

Give Them the Best

Compare Reliv Now for Kids to the most popular children's multivitamin pills. Notice anything different? Reliv Now for Kids is a powdered supplement that delivers nutrients in a liquid shake rather than a pill, enabling quicker, more complete absorption.

Next, look at the label. Cutting-edge nutrients make Reliv Now for Kids the superior children's supplement. A special proprietary blend of advanced ingredients is designed to boost kids' energy, growth and mental performance.

DHA: omega-3 fatty acid critical for development and function of the brain, eyes and central nervous system.

PS and PC: (phosphatidylserine and phosphatidyl choline) support healthy cellular development, mental clarity, memory, learning and cognitive function.

Grape Seed Extract: powerful antioxidant that protects against cell-destroying free radicals.
